OBJECTIVE

I am a recent college graduate with a wide range of experience and technical skills looking for my next opportunity in the interior design industry. I am a dedicated, passionate creative designer who is ready to collaborate with a team to create innovative and impactful designs. I am hoping to pursue a new opportunity where I can be challenged to work on new projects and broaden my design skills.

WORK EXPERIENCE

FREELANCE INTERIOR DESIGNER

July 2022 - Present

- Worked on several projects from total home remodels, room renovations, and backyard designs
- Helped clients design and furnish a variety of spaces in their homes
- Provided furniture layouts, sourced materials, created renderings, and managed budgets & schedules

RESIDENTIAL DESIGN ASSISTANT, KIRKORIAN ENTERPRISES

July 2021 - Present

- Assisted with pre-design, schematic design, and design development for single-family residential project
- Helped create an interior, exterior, and landscape design

HANDS-ON INTERIOR INSTALLATION, SELF-EMPLOYED

June 2019 - August 2021

- Collaborated with several clients to design spaces in residential properties including bedrooms, bathrooms, and living spaces
- Worked with clients to understand their goals, provided design proposals, and worked hands-on to bring the designs to life through installations, purchases, and custom builds

LABEL DESIGNER, MOJO VINEYARDS & CHLOE VINEYARDS

April 2019 - June 2019

- Consulted with the client to understand their brand and product line in order to create a custom logo and wine bottle label

SIGNAGE DESIGNER, SELF-EMPLOYED

March 2018 - August 2019

- Designed various signs for events such as weddings, birthdays, graduation parties, and bridal showers

QUALIFICATIONS

COMPUTER SKILLS

- AutoCAD, SketchUp, Coohom, Twinmotion, InDesign

DESIGN SKILLS

- Hand Rendering, ADA Knowledge, Space Planning, Manual Drafting, Model Building, Presentations, Calligraphy

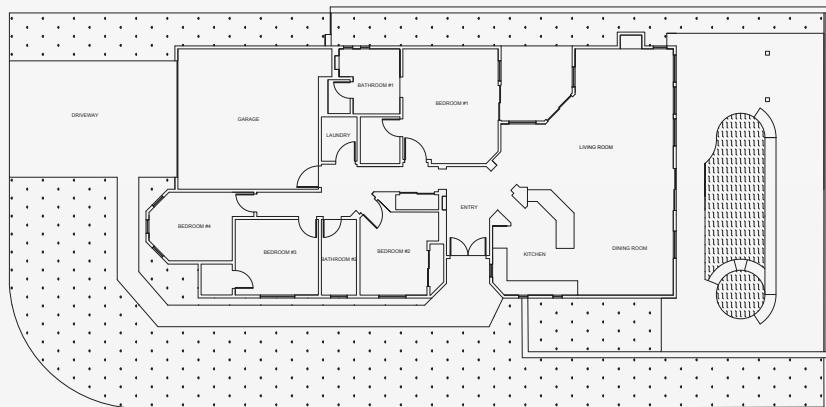

CAREER-RELATED COURSEWORK

- Commercial Interior Design, Residential Interior Design, Methods/Materials Interior Design, Public Interior Design

PROJECT 1

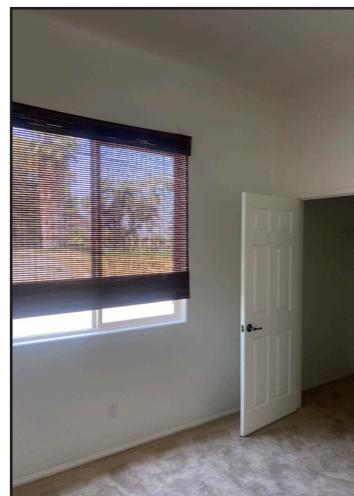

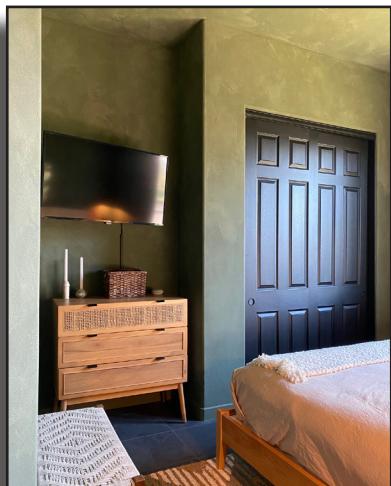

Project Type: Complete Home Remodel
Freelance Project

- Created floor plans and renderings to design the entire space and added a fourth bedroom
- Managed tradesmen communications
- Designed furniture layouts and carefully selected all pieces to bring a unique, fresh feel into the space while combining modern and rustic elements
- Delivered the project on schedule and under budget

AutoCAD, SketchUp, Twinmotion

PROJECT 1 (CONT.)

PROJECT 2

Project Type: Home Remodel
(Freelance Project)

- Client imagined a modern space with a neutral color palette for their new home
- Used AutoCAD to make the floor plan, exported it to SketchUp, and searched for furniture online
- Built furniture in SketchUp and then exported file to Twinmotion
- Successfully designed spaces that aligned with client's vision

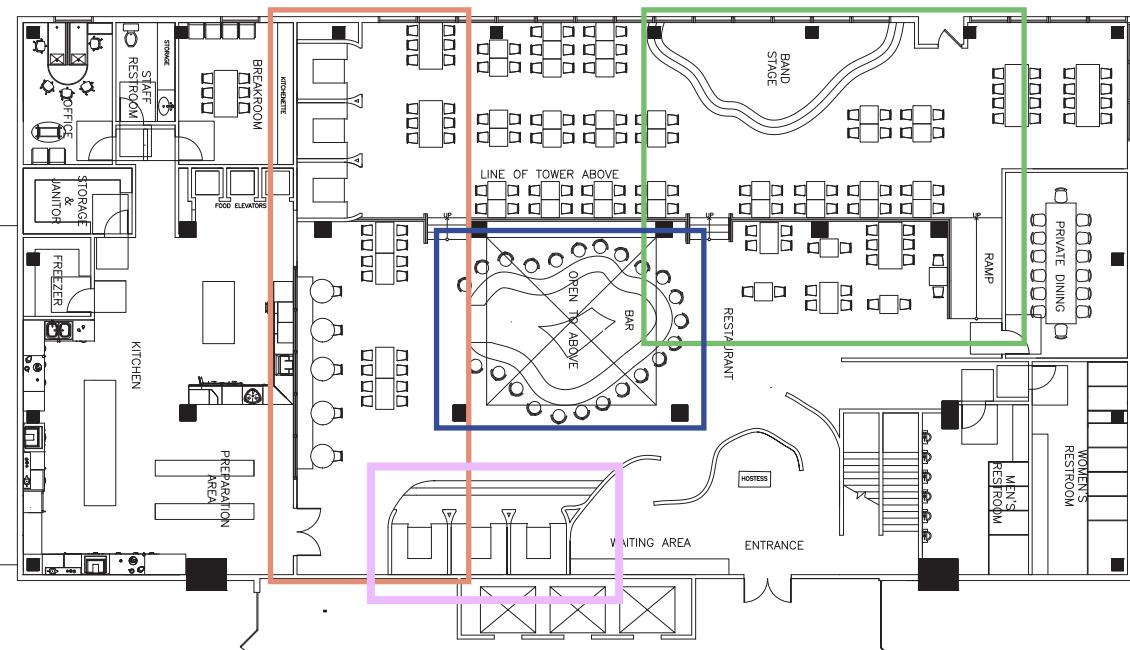

AutoCAD, SketchUp, Twinmotion

PROJECT 3

Project Type: Restaurant Design
Group College Assignment

- Given an existing building where we had to design a commercial space
- My team & I created an atypical art gallery focused on interactive art, music, & food
- I designed the restaurant space & explored the relationship between elegance and the beautiful chaos of street art
- Our art gallery, Sensorium, or “the seat of sensation where one experiences and interprets the environments within which it lives”, pushes the boundaries of what an art museum can look like and the experience that one can have

AutoCAD, SketchUp,
Twinmotion

PROJECT 4

Project Type: Home Design (In-Progress)
Freelance Project

- Client asked me to find all of the tile, paint, counter tops, and cabinetry stain/color for their newly constructed home
- Provided designs that embodied her vision of modernity with pops of color
- Sourced all of the tile and paint from online vendors and placed them into the renderings so my client could see an accurate portrayal of each space

AutoCAD, SketchUp, Twinmotion

PROJECT 5

Project Type: Backyard Design (In-Progress)
Freelance Project

- Hired to re-design a residential property that is being renovated into an office building
- Client wanted an outdoor space that worked great for company parties and where employees could relax and enjoy the fresh air
- Design is currently being brought to life

AutoCAD, SketchUp, Twinmotion

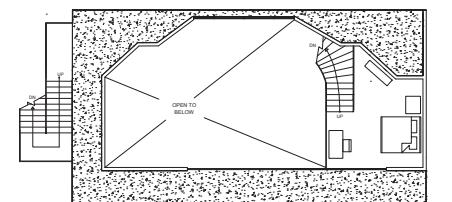

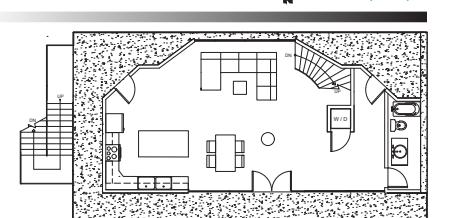

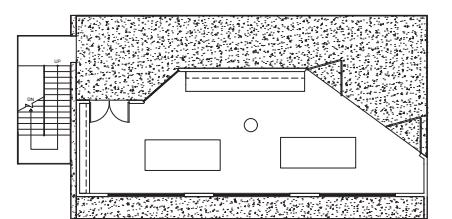

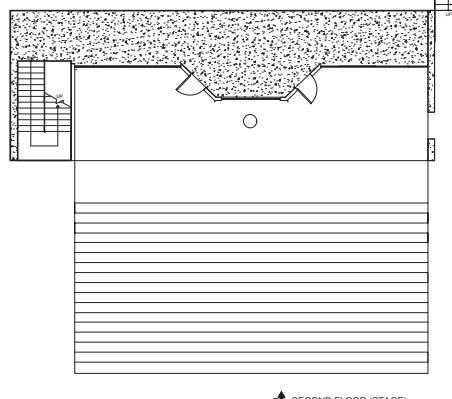

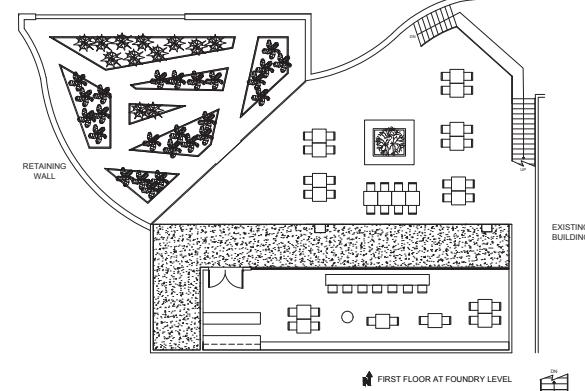

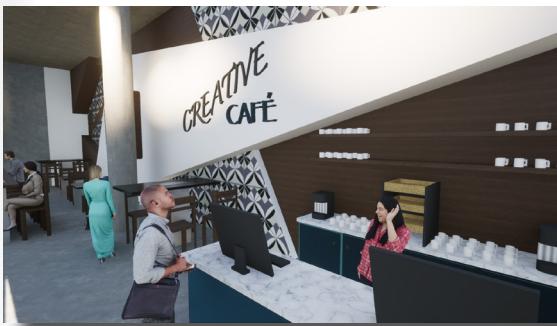

PROJECT 6

Project Type: Multi-Functional Commercial Space
College Assignment

- Had to design a four story building of a certain size, located in an underused space on SDSU's campus
- Each floor served a different function:
 - First Floor: Coffee shop
 - Second Floor: Entertainment space
 - Third Floor: Studio Space (for above resident)
 - Fourth Floor: Residence
- Aimed to design a dynamic structure with a unique modern, industrial design
- Challenged to not use SketchUp warehouse for furniture

AutoCAD, SketchUp, Twinmotion

THANK YOU
